SECTION 4 PROCEDURE, MODIFIER, AND WAITING TIME CODES

MODIFIER CODES

Modifier	Description
	Origin and destination modifiers are created by combining two alpha characters from the following list. Each alpha character, with the exception of X, represents either an origin or destination. Each pair of alpha characters creates one modifier. The first position represents the origin and the second the destination.
D	Diagnostic or therapeutic site other than a physician's office or hospital
E	Residential, domiciliary, custodial facility (nursing home, non-skilled nursing facility)
G	Hospital-based dialysis facility (hospital or hospital-related)
H	Hospital
I	Site or transfer for example (<i>e.g.</i> , airport or helicopter pad) between types of ambulance transport
J	Non hospital-based dialysis facility
N	Skilled Nursing Facility (SNF)
P	Physician's office (includes HMO non-hospital facility, clinic, etc.)
R	Residence
S	Scene of an accident or acute event

OTHER MODIFIERS

Modifier	Description
76	Duplicate procedure, on same day of service
NT	No transport
EV	Evacuation
